

ENVIRONMENTAL EDUCATION WORKSHOP

Connecting Youth to Forests

Teaching students how to think, not what to think!

PLT provides teachers, parents, youth group leaders, foresters, and community members with fun and engaging, hands-on activities and training to take children outside to learn about trees, forests, and the broader environment

- PLT teaches today's students- tomorrow's leaders- about the social, economic, and environmental benefits of trees and forests.
- PLT's hands-on activities use the forest as a window to a wide range of environmental topics.
- PLT activities can be used inside or outside by anyone who interacts with children!

PLT activities are easy to do- you don't have to be a teacher to use PLT - and employ highly effective and well testing teaching strategies

Receive helpful materials and activities for use in your programming!

Sign up for the award winning training today!

Register by October 15th*
